

There Goes The Neighborhood

Chris Webby

[Verse 1]

Yeah, see Ive been grinding for a long time man
But Im here now, there goes the neighborhood I guess, huh
You see Im here to save the day with this music
Grinding to the point I think Im really gonna loose it
But I wont lose nothing,
They trying to step to me but shit you think you could do better with it homie
Then go and do something, ah
They trying to tell me Im crazy, but shit Im crazy good
Step into your city, they sayin there goes the neighborhood
The sale signs go up as soon as I show up
They building bomb shelters cause they know Im gonna blow up, ah
Bright future, they say Im a ticking time bomb
Until Im up on MTV, waving saying hi mom
Grab your video cameras and get your night calms
Making history from the second they flip the lights on
I made it off being business savy and street smart
Who needs a co sign, I let the beats talk
I dont need another rapper lending help
Telling listen to some dope cuz shit, I tell him that myself
Im just playing what Im dealt, shit its been a long road
But I got a lot under my belt and I felt
At times it was a lost cause
But I always got back upon my paws dog
So I know Im gonna make it in the long haul
Shit its now or never homie, I cannot stall
So Im gonna reach out for the stars and I pray for the best
And thats how its gonna be until the day of my death, word[Hook]
Just play in, tune in to this music
Have no fear, I save the day with this music
My city on my back, and Ima take it wherever I go
Wherever I go, wherever I go, wherever I go
Say hello to the new guy in town
There goes the neighborhood, its what they say[Verse 2]
This is 12 years in the making, far from immediate
But now its time to sink my teeth in it,
Im on my beastly shit, cause Im sick as f*ck
You dont believe me b*tch, then go ahead and spit that semen on a petri dish
You need sterilizer just to give me dap

Unless you want your immune system attacked, real rap
Im not doing no duggy, these f*cking idiots should drop the swag and take notes
Cause they can learn something from me
This is all I do man murder instrumentals
With this fire off the top like sweet tooth in twisted metal
Im spitting rebel with a cause, deadly with the bars
Underdog since day one, wasnt expecting your applause
I respect your damn opinion, if you dont like my music
But if you dont respect my hustle, then you aint paying attention
I pay so many f*cking dudes my wallets empty
Aint a person here stopping Webby, motherf*cker[Hook]
Just play in, tune in to this music
Have no fear, I save the day with this music
My city on my back, and Ima take it wherever I go
Wherever I go, wherever I go, wherever I go
Say hello to the new guy in town
There goes the neighborhood, its what they say.[Verse 3]
F*cking animal, Webbys the Serengeti type
They whipping Lambos, but I made it on a pedal bike
Not even Gatorade replenishes electrolytes
I burn, going nuts from the f*cking second I get the mic
Im the grittiest grimest and the wittiest, yeah
Jack the ripper to the beats Im getting busy with, yeah
And half these rapper idiots aint even literate
Im battle tested and ready, Webby a young Odysseus
Fire in my eyes and I hunger for success
Im hunting for the title, while they hunting for a check, yeah
Wondering what is next, but Im going in fists swinging
Till your ears ringing, they dont expect what this kids bringing
Though if you didnt notice, so homie just dont provoke it
I got my state on my shoulders, till Im getting scoliosis
Never gonna stop, my life is like the script of vertical limit
Motherf*cker Im getting to the top[Hook]
Just play in, tune in to this music
Have no fear, I save the day with this music
My city on my back, and Ima take it wherever I go
Wherever I go, wherever I go, wherever I go
Say hello to the new guy in town
There goes the neighborhood, its what they say.
