

# Swept Away

## Fictionist

The flood come rushing down the canyon  
But we didn't run for higher ground  
Took a deep, deep breath and reached for your hand  
And we were down, down, down

Ride until we reach the ocean  
We're gonna ride until we reach the sea  
With the planets we've been set in motion  
Feel the gravity

I was swept away  
Yeah, you were swept away  
Not knowing what would follow  
I was swept away  
Yeah, you were swept away  
And now it's sink or swallow  
And now it's sink or swallow

I found myself in the city  
High above and looking down  
When she speaks it sounds like rushing water  
And I am lost in sound

I was swept away  
Yeah, you were swept away  
Not knowing what would follow  
I was swept away  
Yeah, you were swept away  
And now it's sink or swallow  
And now it's sink or swallow

I was swept away  
You were swept away  
Not knowing what would follow  
I was swept away  
Yeah, you were swept away  
And now it's sink or swallow  
And now it's sink or swallow
