

Live the End (Demo Version)

Last Days of April

If you'd only take some time tonight
To my name
Then maybe I'd reach to grab
Or throw a hand out to you And even though it'll cause you more pain
To look back
You ask...
That's part of the past You ask...
To live the past Live the end again
Live the end again
Live the end again If you ask me, I would love to follow
I'd help you pack
Or would the things I pack
Be might too much aghast And then everything you ask forever never last
So you ask...
To live the past...
Live the end...
The end again Live the end again
Live the end again
Live the end again Live the end again
Live the end again
Live the end again
