Good Thing Going

Rhonda Vincent

Been workin hard to keep our lives in check
Most times everything just seems a wreck
The house is turned upside down
And daughters boyfriend hangs around
But all in all when you do an evaluationWe've got a good thing goin', you and me
Its hard to see how lucky between bills, jobs and family
Weve been through things both good and bad
And once lost everything we had
But our love always seems to see us through
Weve got a good thing goin', me and youI know youve thought of leavin' once or twice before
Its not the life you intended or you're cut out for
A wife thats home to cook and clean, honey, that sure ain't me
But weve made it work and it deserves a celebrationWe got a good thing goin', you and me
It's hard to see how lucky between bills, jobs and family
We've been through things both good and bad
And once lost everything we had
But our love always seems to see us through
Weve got a good thing goin', me and youYou called today and said lets take a break
From the day to day and ever constant rat race
Well, your call was just in time I thought I was gonna lose my mind
Now were on the way to some rest and relaxationWe got a good thing goin', you and me
It's hard to see how lucky between bills, jobs and family
Weve been through things both good and bad
And once lost everything we had
But our love always seems to see us through
Weve got a good thing goin', me and youWeve been through things both good and bad
And once lost everything we had
Weve got a good thing goin', me and you
