Sky Blue

Mr. Scruff

Lost my time lost my place in
Sky blue
Those two blue eyes light your face in
Sky blue
I know how to fly, I know how to drown in
Sky blue
Warm wind blowing over the earth
Sky blue
I sing through the land, the land sings through me
Sky blue
Reaching into the deepest shade of
Sky blue
Sky blue
So tired of all this travelling
So many miles away from home
I keep moving to be stable
Free to wander, free to roam

Train pulled out said my goodbyes
Sky blue
Back on the road alone with the sky
Sky blue
There's a presence here no one denies
Sky blue
Sky blue
Sky blue
So tired of all this travelling
So many miles away from home
I keep moving to be stable
Free to wander, free to roam
I can hear the same voice calling
Crying out, from my heart
And that cry, what a cry
What a cry, it's going to be
If I can stop to let it out, oh
