

Ella Florence England

The Bonfire Band

Ella Florence England was just a child
when life just up and left her
left her running wild.

But in 3 years and some months she never cried
and if her eyes did she was quick to have em dried.
Her Parents were always pleased to be woken up;
at daft o'clock in the morning.

She was a crazy little pup
but did Ella Florence England get a chance,
in 3 years and some months, to do a little song and dance?

You always say you get what you deserve
If you say the wrong things, well, there's a sentence to serve
What goes around seems to come around.
All you have to do is keep your feet on the ground.
It pays your money, it takes your chance.

Yeah you take what you can get. What the good lord grants.
But did Ella Florence England get the chance, in 3 years and some months to do a little song and dance?

There's so many places I've never been.
So many friends of mine that I've never really seen.
I can see it all for Ella now. Yeah I can do it all somehow.
With Ella Florence England in my heart,
then 3 years and some months may be just the start.
