

# Contaminated Drug Supply

## Agoraphobic Nosebleed

dusted nuggs, spores and smoke pass through paper to the lung.  
medical marijuana abandoned for marinol anthrax inhalers.  
coke-raw nose, bleeding sinus infection  
from a mutated smallpix vaccine detected and suspected in economic collapse.  
3 fatal inter-muscular injections of anthrax  
and heroin sends europe running to u.s.  
developed methadone contamination of "unknown" origin.  
antibiotic rehabilitation - its kick or die, kick and die, kicking and wheezing.  
media fodder.
