

Up from the Grave

King Diamond

As I look him deep in the eyes
I see only darkness
I must have knocked him out good
I kind of like that, I must go Up, up, up from the grave
Up, up, up from the grave
Up, up, up from the grave
Up, up, up from the grave Here we go again, my friend
Deep into my twisted brain
I think I'm losing it again
I'm digging for Lucy dear
I've had it up to here Lucy, Lucy, I am here
Lucy, Lucy, don't you fear I will get you out of there
So you can breathe again
You can't sleep forever, dear
Lucy, come to daddy Up, up, up from the grave
Up, up, up from the grave
Up, up, up from the grave
Up, up, up from the grave Here we go again, my friend
Deep into my twisted brain
I think I'm losing it again Oh, tell me what you see
Oh, tell me how it makes you feel
When I sing so, so nicely to you, you Lucy, Lucy
Oh no, oh no, oh no
