

# Return of the Savage (Instrumental)

## Ghostface Killah & Adrian Younge

In the beginning, it's time for a new chapter  
Twelve more reasons to die, after the laughter  
It's relevant, the legacy lives on lavash  
Ghostface Killah, return of the savage  
In the beginning, it's time for a new chapter  
Twelve more reasons to die, after the laughter  
It's relevant, the legacy lives on lavash  
Ghostface Killah, return of the savage I ain't letting nothing live, horrific the ghost risen  
Stigmata scenery ill visions of being villains  
The taste of blood is left on my tongue, walk through the valley of death  
I see the reaper waiting with two snakes kissing  
I can't believe they took my wife and my kids, it's straight Lester  
Word to God, once I get em, I got em, the moments priceless  
Decapitating heads like a journalist snatched with isis  
I want revenge now!  
Spotted one of Delucas men, at a restaurant  
Eating spaghetti, drinking on Dom PÃ©rignon  
With two other goons laughing, probably joking bout the murder  
I calmly approach them with the burner  
When they realized the real live G was about to serve 'em  
60 pieces blew through his jaw, closing his curtains  
Now it's total chaos, the people running for they lives  
The other cocksuckers tried reaching for their hammers  
But they was slow on their draw so I blammed em  
Taking they tops off like convertible dry burgundy phantom  
They say the taste revenge is sweet, well let me see  
Prepare the table for a feast, take a seat, and let's eat  
In the beginning, it's time for a new chapter  
Twelve more reasons to die, after the laughter  
It's relevant, the legacy lives on lavash  
Ghostface Killah, return of the savage  
In the beginning, it's time for a new chapter  
Twelve more reasons to die, after the laughter  
It's relevant, the legacy lives on lavash  
Ghostface Killah, return of the savage  
Beast mode, I'm resurrected, I hear the record spinning  
Early 70s, New York [?]  
And I see street life, the only life I know  
I see Liberty, I see the motherfucking Verrazanos  
I see gangstas getting money, bitches acting funny

Stacks upon stacks, and not one nigga bummy  
Something ain't right, these ain't the greedy streets of Italy  
Where Logan and my seed? C'mon son, you kidding me?  
Who's calling me? Who's looking for the killer with no face?  
Who summoned me into this place? I need answers!  
Behave chancellors, I'm a vigilante killer  
No time for games and there ain't no nigga realer  
Let's talk business, you don't wanna leak your own blood  
State your name, before you get stretched like a rug!
