

Lifetime Before

[Loretta Lynn](#)

We've lived more in a short time together than we've lived in a lifetime before
And this feeling that's burning inside me is a thing of the future in store
The short time we've spent together oh
the love we give each other
Is more than most people see in the lifetime
You're all I ever live for oh no one could ever give more
I can't see me without you nowhere in my mind
We've lived more...
