

For The Girl

The Fratellis

What's best to show? Testline, treasure trove
Fountain, flood me, barmaid, this stings me
I've spent years for the
What's best to show? Testline, treasure trove
Fountain, faster, tavern master this brings me here
I've spent years for the
Kept in this box is a key to a myth
Have you words? I have searched for the girl
"Yeah boy, she said, 'Truth has a fair skin'
To the docks, gone away, gone away"
What's best to show? Testline, treasure trove
Fisher, feed me, wise man pour into me
I've spent years for the
What's best to show? Testline, treasure trove
Fisher four-seasoned, oh, wise man
The reason this brings me here
I've spent years for the
Kept in this box is a sweater cured in salt
Have you words? I have warmth for the girl
"Yeah boy, she said, 'Hope is a landscape that kills'
Ship to sea, gone away, gone away"
Everything changes, everything comes and goes
What's best to show? Testline, treasure trove
Whip post, salt mast, deep sea 'cross stained glass
I've spent years for the
What's best? Let go, cut loose treasure trove
God house, far coast, preach, sir, please far ghost
I've spent years for the
Kept in this box is a key to protect her
Have you words? I have shelter for the girl
Ah, your the boy whose youth she has wasted
To the world, gone away, gone away
