You Lift Me Up

Rachael Lampa

Climbing on a cloud
Dancing on a daydream
I don't have a doubt
Just how good this life can be
You lift me upRunning in the rain
Singing in the sunshine
Telling all the world
Why I'm so in love with life
You lift me upYou lift me up
I'm touching the blue sky
You lift me up
I'm on top of the worldYou lift me
I'm getting closer to Heaven
In every little thing I love
You lift me upHeaded for the stars
Riding on a moon beam
Taking me so far
Farther than I've ever been
You lift me upYou lift me up
I'm touching the blue sky
You lift me up
I'm on top of the worldYou lift me
I'm getting closer to Heaven
In every little thing I love
You lift me upIt's so crystal clear
I'm in love
All I'll ever want
All I'll ever need is right hereI'm touching the blue sky
I'm on top of the world
I'm getting closer to Heaven
In every little thing I love
You lift me upYou lift me up
I'm on top of the world
You lift me up
I'm getting closer to Heaven
In every little thing I loveYou lift me up
I'm touching the blue sky
You lift me up
I'm on top of the worldYou lift me up

I'm getting closer to Heaven
In every little thing I love
You lift me up
Oh, believe me you lift me up
You lift me upYou lift me up
I'm getting closer to Heaven
In every little thing I love
You lift me upYou lift me up
You lift me up
I'm getting closer to Heaven
In every little thing I love
You lift me up
