

# Is This the High Life?

## The Puppini Sisters

I've waited so long for my moment in the sun, sun, sun  
I've tried to stay calm, but come on!  
This feels like a con! I've worked it, now I'm done, done, done  
It's time to move up, or move on I read all the books that keep telling me to manifest my dreams  
Fat lot of good they do  
I fake it to make it, how long will it take?  
Too damn long, it seems Is this the high life? Then why am I wearing Primark?  
Is this the high life? I don't think so  
Is this the high life? Then why did they just cut my credit cards?  
Is this the high life? I don't think so I've written a song just to stop me feeling numb, numb, numb  
The numbers were drawn and I got none  
But hey, where I'm from all that matters is to have some fun  
So keep banging on that drum I read all the books that keep telling me to manifest my dreams  
Fat lot of good they do  
I fake it to make it, but give me a break, I don't need  
To be Queen Is this the high life? Then why am I wearing Walmart?  
Is this the high life? I don't think so  
Is this the high life? Then why did they impound my golf cart?  
Is this the high life? I don't think so But now and then I wake up and I see  
All of the things I've already received  
Hey, things are fine, I have friends and good times  
And love, and that's all I will ever need What is the high life? Watch out, cos I am throwing you a wild card  
Is gold the high life? I don't think so!  
What is the high life? It's living every day like you're in paradise  
Is cash the high life? I don't think so! Is this the high life? My days are more exciting than Jurassic Park  
Is this the high life? Yes, I think so!  
Is this the high life? No matter what I'm wearing I look razor sharp  
Is this the high life? Yes it, yes it, yes it is!!!
