My Saving Grace

D-side

I've still got a lot to learn
But, at least I know where I can turn
When I'm in my times of need
Just as long as I know all things are possible
Just as long as I believe, oh yes
I believe
I've loved a lot, hurt a lot been burned a lot
In my life and times
Spent precious years wrapped up in fear
With no end in sight
Until my saving grace shined on me
Until my saving grace set me free
Giving me peace
Giving me strength when I'd almost lost it all
Catching my every fall, I still exist because you keep me safe
I found my saving grace within You
Yes, I've been bruised, grew up confused, been destitute
I've seen life from many sides
Been stigmatized, been black and white
Felt inferior inside
Until my saving grace shined on me
Until my saving grace set me free
Giving me peace
Giving me strength when I'd almost lost it all
Catching my every fall, I still exist because You kept me safe
I found my saving grace within You
And the bountiful things that you do
Lord, thank you for delivering me
And giving me peace, giving me strength
Giving me hope when I'd almost lost it all
Catching my every fall, I still exist because You keep me safe
Always my saving grace pulls me through
I found my saving grace within You
Yes, You are
You're my every, everything
Only, only You, only You
My saving grace, Lord, is You
