Always See Your Face

Love

Won't somebody please help me with my miseries?
Can somebody see, yeah, what this world has done to me?And I know, I know
And I say, oh, I say
That no matter where I go, no
I will always see your faceWon't somebody please help me with my memories?
Can somebody see, yeah, what this world has done to me, yeah?And I know, I know
And I say, oh, I say
That no matter where you go, no
You will always see my faceAnd I know, I know
And I say, oh, I say
That no matter where you go, no
You will always see my faceAnd no matter where you go, no
You will always see my face
And no matter where you go, no
You will always see my faceAnd no matter where I go, no
I will always see your face
Hey, look and I can see your face
Yeah, look and you can see my face
Hey, I'm looking at you looking at me
