Rockability

Sallie Ford

Some people wanna send you where you don't belong
Think the rock style has come and gone
Synthezisers harmonisers give it a try
But I got something that will never die
I got rock rockability
Ah that's all that matters to me
RockabilityWell a gang of wild dogs tries to run me down
I take the ring leader make him look like a clown
I'm stopped upon the top but in case you forgot
I'm the king of the cats and I'm ready to rock
I got rock rockability
Ah that's all that matters to me
RockabilityDuane eddy says it's always been like this
They tried to take gene vincent make him do the twist
Elvis started rockin' from the waist on down
But baby I'm gonna rock till the house comes down
I got rock rockability
Ah that's all that matters to me
RockabilityI got rock rockability
Ah that's all that matters to me
RockabilityWell a gang of wild dogs tries to run me down
I take the ring leader make him look like a clown
I'm stopped upon the top but in case you forgot
I'm the king of the cats and I'm ready to rock
I got rock I got rock rockability
I got rock rockability
Ah that's all that matters to me
