

# To the Top

## Twin Shadow

I know it's not the right time tonight  
But I won't move until this stops  
Go back to the top  
Back to the top You never belonged to me  
Now I can see the light  
That you are  
Never good at controlling me  
Now I can see the light  
Shining, whole  
And I know, I know it was blinding you Say, life can be long  
Wanna know, wanna know, wanna know  
Wanna know it's true  
When you say  
You gotta get me to hear you I know it's not the right time tonight  
But I won't move until this stops  
Go back to the top  
Back to the top I'm not scared if you run to me  
Lost like when you were mine  
And you continue to run from me  
Just offer me your time Stay, life can be long  
Wanna know, wanna know, wanna know  
Wanna know it's true  
When you say  
I want you around  
You gotta make me believe you I know it's not the right time tonight  
But I won't move until this stops  
Go back to the top  
Back to the top I know it's not the right time tonight  
But I won't move until this stops  
Go back to the top  
Back to the top I know it's not the right time tonight  
But I won't move until this stops  
Go back to the top  
Back to the top
