Chris Brown

(Verse 1)

Thick thighs, tight booty, damn girl you a beast

You're like chronic, need a dose cause I need the release

Hypnotic, thats right what you doin to me

Somebody call the doctor quick because I need therapy

Just like i'm bangin' on this thang and Are ya listenin to me?

The way she moves it round and round, she was made just for me

Feel like a glove

Theres no way i'll ever get up and leave cause she the type thats right and give me all that I need

(Bridge)

she put some knowledge into it somethin real vicious she know that i want it

She recognize my game she dig that im young and i run it (run it)

WORK IT i ain't leavin' less you leavin' with me,

Little mama i know you wit it so lets get it and leave

(Chorus)

You gone get it, get it, (you gone get it girl) (2x)

I see the look in your eyes

I see yah lickin your lips

And i can tell what's goin down how you shakin yo hips,

Girl get it, get it, get it, get it, girl(2x)

(Verse 2)

See, now

Whatchu doin' to me

Got that robot type of movement as you move to the beat

Stop frontin' know you want it, girl, come go with me

And i wont tell nobody else cause its our privacy, yeah

fire i desire baby girl i cant breathe

And my pulse is steady jumpin'

Can you feel how it wit me

How i feel, so unreal, damn it chu killin me

Simon says turn around and just move your body

(Bridge)

she put some knowledge into it somethin real vicious she know that i want it

She recognize my game she dig that im young and i run it (run it)

WORK IT i ain't leavin' less you leavin' with me,

Little mama i know you wit it so lets get it and leave

(Chorus)

You gone get it, get it, (you gone get it girl) (2x)

I see that look in your eyes

I see yah lickin your lips

And i can tell what's goin down how you shakin yo hips,

Girl get it, get it, get it, get it, girl(2x)
