

# Not Right

## The Rocket Summer

She's not right  
I want something I want something tonight  
I want something  
I want something, all right  
But she can't help because she's not right  
No, no, no, no,  
It's always, it's always this way

I'm not right  
She wants something she wants something tonight  
She wants something  
She wants something, all right  
But I can't help because I'm not right  
No, no, no, no,  
It's always, it's always this way
