33 RPM

John Brown's Body

Just because you turned your back
Just because you turned away
It doesn't make me any better
It doesn't make you any lessYou think you're better?
My ideals are still the same
You're the one who fucking sold out
You're the only one to blameJust because you turned your back
It doesn't make me any less
Let's goBring it back
Just because you turned your backI'll never turn away, turn away from this fight
I'll never turn my back on this fight
I'll never turn away, turn away from this fight
I'll never ever turn my back on this fight
