

# So Many Bridges

FFS

the places, they all look the same  
ill dive in, ill save you again  
but friendship has limits you know  
so how long, how far will you go  
so many bridges in the world to jump off of  
the places, they all look the same  
same shop girls, same salary men  
capricious thats how you'd explain  
capricious or maybe insane  
so many bridges in the world to jump off of  
right in the oklahoma  
way by the ??  
paris and san francisco  
how can we go  
so many bridges in the world to jump off of  
the places, they all look the same  
same buildings, same punctual trains  
resentment is building in me  
but somehow i can not retreat  
so many bridges in the world to jump off of
