

On Standby

Shed Seven

Would you stay on standby?
Because I need another alibi
In the wrong place at the wrong timeCould you talk a fine line?
I need to know that I'll be fine
BulletproofIt's like I've never been born
We conceive in the alleyways
It's like I've never been bornWe believe in other ways
That you do and you did
And there's proof
That we did wrong tonightCould you sense a tragedy?
Because I saw it on the BBC
There's a panel on that channelCould you walk a narrow line?
I need to know I'll serve my time
With some useIt's like I've never been born
We conceive in the alleyways
It's like I've never been bornWe believe in other ways
That you do and you did
And there's proof
That we did wrong tonightAnd tonight
You can cry if you want to
But it won't help youYou can cry if you want to
But it won't help you
To get you through this crime
It will plague you standbyIt's like I've never been born
We conceive in the alleyways
It's like I've never been bornWe believe in other ways
That you do and you did
And there's proof
That we did wrong tonightWe did wrong, we did wrong
