Deeper and Deeper

The Fixx

Talkin' about stealin' the show no one would know
Talkin' about stealin' the show when they're all lettin' go
Take a look at the witch see the twitch in her eye
Tell me what did she feel?
Is this the way of the world take a boy and a girl
Show them lying is realThen I see the edge I look I fall
Deeper and deeper
The more I see the more I fall there's no place to hide
You better take the call
Deeper oh, ohIs it the smell of the oil the sweat and the toil
That makes livin' unreal?
The yuppie in the suit the man with a flute what did he steal?
It's beginning to break there is a mistake nowhere to go
A fool and his blood in the wrong neighborhood what price
Does he pay?The further I see, I see the edge I look I fall
Deeper and deeper
The more I see the more I fall there's no place to hide
You better take the call
Deeper oh, ohThe further I see, I see the edge I look I fall
The further I see, there's no place to hide, gonna take the call
The further I see, when I see the edge I look I fall
There's no place to hide anymore
The further I see, we gonna stick out to the satelliteDeeper, I see, I see the edge I look I fall
And then, I see the edge I look I fall
Deeper and deeper
Oh yow
We gotta see the edge
We gotta take out all our hoes
