

Mess

Caroline Pennell

I open my mouth and words just come out
Stupid things said and done
But I am older now and I know better somehow
Than to chase away this love And I don't care what they say to me anymore
I am thinking for myself And I'll try a little harder
To keep my weary head above the ground
I'll try a little harder
To make you feel the way you should around me
And if you stay I won't
Mess it up this time I know I can't stay the way I have changed
But it's easier say than done
And I am ready now, i just lost somehow
I won't let go off this love And I don't care what they say to me anymore
I am thinking for myself And I'll try a little harder
To keep my weary head above the ground
I'll try a little harder
To make you feel the way you should around me
And if you stay I won't
Mess it up this time Time
Time
I won't mess it up And I'll try a little harder
To keep my weary head above the ground
I'll try a little harder
To make you feel the way you should around me Try a little harder
To keep my weary head above the ground
I'll try a little harder
To make you feel the way you should around me
And if you stay I won't
Mess it up this time
