

# Sink the Lighthouse (feat. Alex Vargas)

## Above & Beyond

Winter comes calling  
The temperature's falling  
A fear is crawling  
Don't quit, we're all in  
The ship's a mile out  
Don't blow the lights out  
They'll cry their eyes out, if we  
sink the light house Since fear itself is  
Cruel and selfish  
A contradiction  
A fatal addiction  
You tried to shout out  
My words in your mouth  
But they'll cry their eyes out, if we  
Sink the light house We're hard on the angels heels  
With fire and brimstone wheels  
The meadow starts with bones, and flowers and tears  
The ship's a mile out  
Don't blow the lights out  
They'll cry their eyes out, if we  
Sink the light house With darkness closing  
We're decomposing  
We're made of starlight  
From cruel and dark night  
The guilty crushed out  
We're left in no doubt  
They'll cry their eyes out, if we  
Sink the light house
