

Stay On the Ground

Armor for Sleep

I started looking out for myself today
But then I stopped 'cause I don't care
I'm feeling bored, I'm feeling numb
So now I'll stop 'cause I don't care I started looking out for myself today
But then I stopped 'cause I don't care
I'm feeling bored, I'm feeling numb
So now I'll stop 'cause I don't care So get it, get it, get it right
I'm not holding on to a thing here
Get it, get it, get it right
I'm not holding on and I can't say no Holding your head up is hard when you just want
To stay on the ground, to stay on the ground
Holding your head up is hard when you just want
To stay on the ground, to stay on the ground I started feeling bad for myself today
But then I stopped 'cause I don't care
I'm dreaming less and sleeping more
But I sold my soul for the dream you stole So get it, get it, get it right
I'm not holding on to a thing here
Get it, get it, get it right
I'm not holding on and I can't say no Holding your head up is hard when you just want
To stay on the ground, to stay on the ground
Holding your head up is hard when you just want
To stay on the ground, to stay on the ground About 50 years left I'm just waiting around
Put your heart on your sleeve and watch me pull it down
Of my 50 years left I'm just waiting around
Put your heart on your sleeve and watch me pull it down Holding your head up is hard when you just want
To stay on the ground, to stay on the ground
Holding your head up is hard when you just want
To stay on the ground, to stay on the ground
Holding your head up is hard when you just want
To stay on the ground, to stay on the ground
