Deceiver

Judas Priest

Solar winds are blowing
Neutron star controlling
All is lost, doomed and tossed
At what cost, forever?Meteors fly around me
Comets die and then they, and then they
You wanna see how they try to surround me
I can say, here today we shall stay foreverIf you want to find us in a hurry
Oh, let me tell you
Don't you worry
I can say, here today we shall stay forever
