

Opelwerk

Zeromancer

Staring at the white walls
It feels good when the sun don't shine
Two of a kind but there are times
You're not listening to me Nail you to the floor
Your hands are going numb
Put out the candles plastered to your skin
It's only for tonight When everyone's asleep
Frustration comes to me
Like talking to a machine
It's only in your dreams Bring me down, bring me down
My eyes adjust to the light
My eyes adjust to the night Tonight when everyone's asleep
Frustration cuts too deep
Like talking to a machine
It's only in your Tonight, if only it's alright
It's only for tonight
If only it's alright, yeah
