Life On the Outside

Gov't Mule

Freedom train is coming all around the world
Talking 'bout freedom, yeah bring it on
Drop what you're doing and climb on board
All it costs you is the songLife on the outside
Life on the outsideDon't worry 'bout the weather, it's all in your head
We're all here for such a short time
We got to learn to live together or we might as well be dead
Loosen up, baby and have a good timeLife on the outside
Life on the outsideLeave behind your baggage, check your hood, check your head
Life on the outside
Freedom train is leaving be on it, be on it
Life on the outsideInside is so boring, the old man is snoring
But the young man is dying to live
You won't want to go back
Once you're rollin' down the trackCan't get caught up in what they want you to be
Be who you are that is the message
Beautiful world in dissonant harmony
Be who you are that is the messageLeave behind your baggage check your hood, check your head
Life on the outside
Freedom train is leaving be on it, be on it
Life on the outside
