

Last Young Renegade

All Time Low

[Verse 1]

Just a couple kids on a summer street
Chasing around to a flicker beat
Making mistakes that were made for us
We brushed them off like paper cuts[Pre-Chorus]
You said you're sick and tired of it, it
But I need you more than I'd admit, oh
I miss you every single way-ay-ay
We said forever but forever wouldn't wait for us[Chorus]
You were my last young renegade heartache
It only took one night
Caught in the eye of a hurricane, darling
We had to say goodbye[Verse 2]
Underneath the lights of a motorway
That's where I go to keep your ghost away
We used to be such a burning flame
Now we're just smoke in the summer rain[Pre-Chorus]
You said you're sick and tired of it, it
But I need you more than I'd admit, oh
I miss you every single way-ay-ay
We said forever but forever wouldn't wait for us[Chorus]
You were my last young renegade heartache
It only took one night
Caught in the eye of a hurricane, darling
We had to say goodbye
I want to know that you're somewhere out there
Somewhere down this road
You were my last young renegade heartache
How could I let you, how could I let you go?[Bridge]
You were the best thing that ever happened to me
And I keep on fighting just to make you believe[Chorus]
You were my last young renegade heartache
It only took one night
Caught in the eye of a hurricane, darling
We had to say goodbye
I want to know that you're somewhere out there
Somewhere down this road
You were my last young renegade heartache
How could I let you, how could I let you

Don't want to let you, I'd never let you go
