Weight Of The World

Framing Hanley

Who's to say there's a way this has to end?
We're writing our own rules
Who's to blame? Give me names and what they said
Oh, how could they hurt you?
And when you crumble away under pressure
You need to borrow my strength and I'll let ya
It's getting heavier hold, hold it steadier, I see
Life is throwing you curves, you can make it
Take it in, try again, you don't deserve this
I just wanna save you, you can take it on the chin
Try again, you'll make it
You don't have to carry the weight of the world
You don't have to carry the weight of the world
Separate what you hate from what you love
Once and for all and if you tumble my way I can catch ya
If you follow my lead and I'll bet ya
It's feeling heavier, hold, hold it steadier, I see
Life is throwing you curves, you can make it
Take it in, try again, you don't deserve this
I just wanna save you, you can take it on the chin
Try again, you'll make it
You don't have to carry the weight of the world
You don't have to carry the weight of the world
Life is throwing you curves, you can make it
Take it in, try again, you don't deserve this
I just wanna save you, you can take it on the chin
Try again, you'll make it
You don't have to carry the weight of the world
Don't have to carry the weight
Carry the weight of the world
You don't have to carry the weight of the world
Who's to say there's a way this has to end?
