Makin' Me Fall In Love Again

Kellie Pickler

People will tell you that this kind of love will fade
That being in love like this is only a phase
But baby after all this time ain't nothin' changed
All you gotta do is look at me that way
And there you go makin' me fall in love again
There you go makin' me fall in love again
Oh, and I gotta tell you there's nothin' better
You and me together, workin' on forever
Everyday with you is always somethin' new
You only gotta be yourself
And there you go makin' me fall in love again
Baby sometimes you can say the craziest things
I love how you don't care what nobody thinks
You're highly original, totally untypical, never change
All I gotta do is look at your smiling face
There you go makin' me fall in love again
There you go makin' me fall in love again
Oh, and I gotta tell you there's nothin' better
You and me together, workin' on forever
Everyday with you is always somethin' new
Only gotta be yourself
And there you go makin' me fall in love again
You're my sunshine, you're my rain
Sure feels good to know you feel the same
I gotta tell you there's nothin' better
You and me together, workin' on forever
Everyday with you is always somethin' new
Only gotta be yourself
And there you go makin' me fall in love again
There you go makin' me fall in love again
There you go makin' me fall in love again
There you go, there you go
(Fall in love again)
Makin' me fall in love again
(There you go, there you go)
Makin' me fall in love again
(There you go, there you go)
Makin' me fall in love again
(There you go, there you go)

Makin' me fall in love again
