Hands

The Almost

With our hands up high we're screamin
Whoa whoa oh .. whoa whoa ohI'm not afraid
To make big mistakes
To fall flat on my face
I need to get this looked at
Need to get this looked at
I need some time to think
About what I've done
Oh, one last thing before I goWith our hands up high we're sreaming
Whoa whoa oh .. whoa whoa oh
And with our feet
We stomp a cadence for youIt's all free and that's real
It's all free, you said I need
To accept, I need forget I guess
I'm glad I got this looked at
Finally got this looked at
I'm so glad you came for me
Get this, get this right
Before we goI am the one who needs you
I am the one who needs you
I am the one who needs you
