

And You Don't Stop

The Walls Group

Ever, ever since I can remember
You've always been right there for me
And no matter what I was doing
You let me sing
How life should big
Cause You make it better by covering me
And You don't stop When my way gets a little cloudy
And my nights get a little rough
I know that no matter what's going on
You give me peace
You comfort me
You make it better
You're love that never leaves
And it don't stop
And You never change
And You stay the same
Lord, You do it for me
And Your love is on repeat Every day, every day with You Lord
It gets sweeter, sweeter than the day before
And no matter how I might be feeling
I look to You
Can't count on myself
You are that very present help
And it don't stop And You never change
And You stay the same
You do it for me
And Your love is on repeat
You can prove others you're real
(And you don't stop)
You keep on proving and I just love what you're doing
(And you don't stop)
You do it over and over again
(And you don't stop)
