

Hassle Free Harmony (Bench Remix)

Her Space Holiday

On my way to an early grave I stopped some where along the way

In hopes to learn my name

We all have lives that we must leave some are great and some are weak

I'm somewhere in between I used to think the world was round until I filled my head with sound

And pictures of a place where I was good and wrong was right

And nothing kept me up at night except the songs we made We all have lives that we must leave some are great
and some are weak

I'm somewhere in between

I'm somewhere in between

I'm somewhere in between

I'm somewhere in between
