

# Stay Frosty Royal Milk Tea

## Fall Out Boy

I think I got too many memories getting in the way of me  
I'm about to go Tonya Harding on the whole world's knee  
And I'm stuck, night vision  
So stuck night vision  
But I come to life, come to life Some princes don't become kings  
Even at the best times I'm out of my mind  
You only get what you grieve  
Are you smelling that shit?  
Are you smelling that shit?  
Eau de rÃ©sistance The only thing that's ever stopping me is me, hey  
The only thing that's ever stopping me is me, hey  
I testify if I die in my sleep  
Then know that my life was just a killer dream, yeah  
Seems like the whole damn world went and lost its mind  
And all my childhood heroes have fallen off or died  
Fake tears, we are living fake tears  
But the alcohol never lies, never lies Some princes don't become kings  
Even at the best times I'm out of my mind  
You only get what you grieve  
Are you smelling that shit?  
Are you smelling that shit?  
Eau de rÃ©sistance The only thing that's ever stopping me is me, hey  
The only thing that's ever stopping me is me, hey  
I testify if I die in my sleep  
Then know that my life was just a killer dream, yeah  
Then know that my life was just a killer dream, yeah  
I testify  
I testify  
Are you smelling that shit?  
Eau de rÃ©sistance  
Hey, hey, hey  
Some princes don't become kings  
Even at the best of times I'm out of my mind  
You only get what you grieve  
Are you smelling that shit?  
Are you smelling that shit? The only thing that's ever stopping me is me, hey  
The only thing that's ever stopping me is me, hey  
I testify if I die in my sleep  
Then know that my life was just a killer dream, yeah

Then know that my life was just a killer dream, yeah

Are you smelling that shit?
