Spaceman

Aidan Nolan

Im gonna be a spaceman, Im gonna ride across the sky
Im gonna be a spaceman, I know I can make it if I try
Ill be traveling past the sun, so if you think youd like to come
Then climb aboard the love for you and IIve gotta have a space-love, I wanna see it in the sky
Make all of us a space-love, I know we can make it if we try
Have you tried to ride before, and all alone it took much more
But if we go together well get byIm gonna be a spaceman, Im gonna ride across the sky
Im gonna be a spaceman, I don't wanna stay here till I dieIm gonna be a spaceman, Im gonna ride across the sky
Ive gotta have a space-love, I want see it in the sky
Im gonna be a spaceman, Im gonna ride across the sky
