Finish What You Started

Lea Salonga

So near yet so far, that's how it is
That's how you are, what more can I do?
These walls won't let me get through
But if I know youYou will finish what you started, you'll come back to me
I know it's gonna feel, baby, like it used to be
So finish what you started, I will wait for youI know where I stand, a fool for your love
(For your love)
That's what I am, I'm losing control
You're down too deep in my soul
To let you goWon't ya finish what you started, you'll come back to me
I know it's gonna feel, baby, like it used to be
So finish what you started, I will wait for youI'm standing here shaking
Wondering if you let me in
Don't watch my heart breaking
Knowing what we could have beenWhat more can I do?
Your heart just won't let me through
But if I know you(Finish what you started)
And I think I know you, baby
(Finish what you started)
And you can really show meIf you finish what you started, you'll come back to me
I know it's gonna feel, baby, like it used to be
So finish what you started, I will wait for youFinish what you started
(I will wait for you)
Finish what you started
(I'm gonna wait for you)Finish what you started
(Don't you keep me waiting)
Finish what you started
(Finish what you started)Finish what you started, you'll come back to me
I know it's gonna feel, baby, like it used to be
So finish what you started, I will wait for you
