Know How to Love You

Colin James

sometimes it takes a little more than luck
sometimes it takes a piece right a you
and when you think that youve seen enough
you realize that your breaking all through
sometimes the deeper you go
brings you closer to the lighter day0:59
let me love you
let me love you
i dont wanna talk about it
I dont wanna talk any more
let me feel you
let me feel you
I'm starting to know how
how to love you1:34
does it make any more sense
do i ever get to close the book
i get so tired of paying the rent
and sing these same old blues
and try not to think so much
i really should let it be2:23
let me love you
let me love you
i dont wanna talk about it
I dont wanna talk any more
let me feel you
let me feel you
I'm starting to know how
how to love you3:13
let me love you
let me love you
i dont wanna talk about it
I dont wanna talk any more
let me feel you
let me feel you
I'm starting to know how
how to love you
I'm starting to know howhow to love you
