All Over Again

Neal Mccoy

Turn down the lights, turn up the radio There's a fire in your eyes and it's keepin' me warm

And hold on to me like it was yesterday

When we both felt our spirits collideI remember that moment, bein' struck down by lightnin'

The first time I saw your face and you smiled

Come and lay down with me, feel the space in between us

Find the magic that keeps love alive This time can be like the first time

Close your eyes and soon we'll be there

And no mind could ever guess what we're feelin'

Turn a spark to a flame, make a wish

Close your eyes, watch it start all over againJust like the first time that you touched my skin

(All over again)

I tasted heaven, take me there again

(All over again) Your smile, your touch, your taste

It turns me on and on and on

Then I fall in love with you all over againCome and step through the stars

Let's take a ride through the universe

As long as we're here, let's take the whole thing in

What I'm tryin' to say is that you're so beautiful

Let me say it all over againThis time

(This time)

Can be like the first time

Close your eyes and soon we'll be thereAnd no mind

(No mind)

Could ever guess what we're feelin'

Turn a spark to a flame make a wish

Close your eyes, watch it start all over againJust like the first time that you touched my skin

(All over again)

I tasted heaven, take me there again

(All over again) Your smile, your touch, your taste

It turns me on and on and on

Then I fall in love with youThen I fall in love with you

I keep fallin' in love with you all over again

All over again, yeah
