

Into the World

Stereophonics

From day one
When we first breathe
Into the light
We first see Searching our souls
Ever since our mothers
Brought us this life
So what's to be Into this world
Into the sun
To find the love
That makes you one Climbed a mountain
So I can see
All of the wonder
In front of me To watch the sunrise
To feel the breeze
Mothers and children
Their destiny Into the world
Into the sea
To find the love
That makes you free Into the lies
Into the grace
Into the love
Into the hate
Into the world Into the hurt
Into the loss
Into the birth You're all that I want
You're all that I see
You're all that I got
You're next to me To find the love that makes you free
To hear the words
You sang to me Into the world
Into the rain
Into the storm
And back again You're all that I want
You're all that I see
In everything
Right next to me So open your heart
And open your eyes
Open your arms
Into this life

Into the world
