

# We Are Gods

## Highlord

[ Music:Alessandro Muscio - Words:Stefano Droetto ]The Prophecy was right

I know it for all the tears I cried

How can we face this day?

The pillars of fate are falling downHelp me to see

If there's a reason to believe

If there's a place for you and me.....Oh Oh Day by day we lose our faith

Lords of the World we won't protect you

Crossing the mysterious lineThe gift of Creation makes us Divine

We won't come back this time

Don't wait for us we're far away.

To conquer what the time denies

(We're) growing stronger, (we're) goin' insane!

Back from the past will rise

Someone to fight what we becameHelp me to see

If there's a reason to believe

If there's a place for you and me.....Oh Oh Day by day we lose our faith

Lords of the World we won't protect you

Oh Oh Step by step we reach the Sky

We are the Gods of nonentity!
