

# Glow

## Alien Ant Farm

I never thought that you'd find out I did it  
I was so scared that you leave so I hid it  
I know we said that we always be honest  
So now I wait out in messed up honors  
It finally seems that we've turned into strangers  
It's gotten' so bad there's no more anger  
So now we seem we can't get no further  
I can't believe I'll be bright for another[Chorus]  
I'll be the switch she turns on  
She'll be mine to, I get on  
I'll be the fuse that she blows  
And even with the lights out we'll glo-o-o-o-ow So where's the sanity or the love on your face  
I'm on the moon with the girl that's in your place  
And even Edison has no idea  
Of all the blackouts I've caused you and me-a[Chorus] We'll glow, we'll glow, we'll glo-o-w[Chorus] I'll be the,  
I'll be the fuse  
I'll be the, I'll be the fuse
