

# And It's Beautiful

## Crash Test Dummies

We turn out water into wine  
It's something we do all the time  
It doesn't cost a single dime  
And it's beautiful, yes, it's beautiful Our glasses, never just half full  
The flowers vivid, colorful  
And though we feel the push and pull  
And it's beautiful, yes, it's beautiful And through our hearts are in the right place  
And out there is the whole human race  
Each one has a mask and a face  
And it's beautiful Enough about the look in your eyes  
Enough about the sun and the sky  
It will always be just you and I  
And it's beautiful, yes, it's beautiful Oh, so beautiful, yes, it's beautiful  
Oh, so beautiful, yes, it's beautiful  
Beautiful
