All Nighter

Dan + Shay

I'ma walking out my front door
I'ma jumping in my car
Take another left on Main Street
Head right to where you are
I'ma rolling down my window
I'ma turn the radio on
Find a little spot to let go
Get a little good time goneCause this is an all nighter
A get lost with you running through every red lighter
I'm falling and feeling like a star right out of a midnight skyer
Let the time fly by
Cause it's a finding her hand, taking a chance, starting a fire
This is an all nighter
Yes it is babyWe are gonna take that sunset
Make it turn the blue sky red
We can worry bout tomorrow
But what you say we live instead
Get a little dirt road dizzy
Let the moon shine on us
Getting all barefoot dizzy till the sun sneaks back up
Cause we just can't get enoughCause this is an all nighter
A get lost with you running through every red lighter
I'm falling and feeling like a star right out of a midnight skyer
Let the time fly by
Cause it's a finding her hand, taking a chance, starting a fire
This is an all nighter10 o'clock kiss
12 o'clock cruise
Take another sip, talk until two
This is a never gonna have to say goodbyerThis is an all nighter
A get lost with you running through every red lighter
I'm falling and feeling like a star right out of a midnight skyer
Let the time fly by
Cause it's a finding her hand, taking a chance, jumping a fence, do it againAll nighter that's right
A get lost with you running through every red lighter
I'm falling and feeling like a star right out of a midnight skyer
Let the time fly by
Cause it's a finding her hand, taking a chance, starting a fire
This is an all nighter
Yes it is baby

This is an all nighter
