

She Likes Hair Bands

Butch Walker

She likes hair bands on satellite radio
But I was in one so it's a little too close to home
And she can dance like she's done it for a living before
And I kinda dance like I've been shot in the leg for sure
She's got all that she's got but she don't got me
So baby, lay down, nobody is around
Watching as our bodies slowly sinking to the ground
Throw away your phone and your inhibitions too
There's a hundred dirty things that I wanna say to you
Never let me come and never let me go
I got you where I want you so I wanna say it slow
This is as good a night as any to say that you want me too
She likes Mary Jane but she says she doesn't like the
smell
She's got a baby and by the way she walks I can tell
She's got a birth mark on the inside of her thigh
Ask me how I know about the inside of her thigh
She knows the Japanese alphabet but she don't know me,
yeah
So baby, lay down, nobody is around
Watching as our bodies slowly sinking to the ground
Throw away your phone and your inhibitions too
There's a hundred dirty things that I wanna do to you
Never let me come and never let me go
I got you where I want you so I wanna say it slow
This is as good a night as any to say that you want me too
She's got all that she wants but she don't want me
So baby, lay down nobody is around
Watching as our bodies slowly sinking to the ground
Throw away your phone and your inhibitions too
There's a hundred dirty things that I wanna do to you
Never let me come and never let me go
I got you where I want you so I wanna say it slow
This is as good a night as any to say that you want me too
