Doomed Planet

Cirith Ungol

Trapped on a dying world a world to late to save
Mankind is on the move and he's marching to his grave
False prophets filled with greed leaders who rule by fear
By their lies they are betrayed and their message crystal clear[Chorus:]We're living on a doomed planet a planet to late to save
We're living on a doomed planet mankind's marching to his graveDark clouds foul the sky as the end is well at hand
The acid rain will fall sweeping death across the land
The poison rivers flow to a helpless dying sea
Of the wicked race of man this world will soon be free[Chorus]Trapped on a dying world, a world of hate and pain
The judgement has arrived and the verdict is insane
The masses cringe in fear for their sentence has arrived
May the punishment be slow and the guilty flayed alive
