

# I Almost Told You That I Loved You

## Papa Roach

You know I love it when you're down on your knees  
And I'm a junky for the way that you please  
You shut me up when you swallow me down  
My back to the wall you're going to town I almost told you that I loved you  
Thank god I didn't 'cause it would've been a lie  
I say the damndest things when you're on top of me  
I almost told you that I loved you I hate to say it but it has to be said  
You look so fragile as I fuck with your head  
I know it shouldn't but it's getting me on  
If sex is the drug then what is the cost? I almost told you that I loved you  
Thank god I didn't 'cause it would've been a lie  
I say the damndest things when you're on top of me  
I almost told you that I loved you I'm not the one that you want, not the one that you need  
My love is like a fucking disease  
You can give me your hand, you can make your demands  
I'm the hardest motherfucker to please I almost told you that I loved you  
Thank god I didn't 'cause it would've been a lie  
I say the damndest things when you're on top of me  
I almost told you that I loved you I almost told you that I loved you  
Thank god I didn't 'cause it would've been a lie  
I say the damndest things when you're on top of me  
I almost told you that I loved you
