The Day You Cried

Us5

[Jay:]I've seen the pain I caused, It's hard for me to lie
I didn't mean to make you cry
[Chris:]We could've built a castle high up in the sky
But the love we shared is somewhere far away
[Chorus:]How deep is your love, girl I can't deny?
The pain that I feel you're the reason why
If only I could've known that I could be so wrong
How deep is love, I can see it inside
The times you cried and stayed by my side
I finally realised, the day you cried
[Richie:]I've lived and learned, some painful lessons in my life
And girl, the truth I can't deny

[Mikel:]Just give me one more chance to make this turn out right
Cause I need you here forever in my life
[Chorus][Bridge:][Richie:]I feel your pain, I need your touch
I see the truth inside these tearful eyes
[Jay:]I know next time, I'll make it up to you
I can't live without you
[Mikel:]I swear I'll be true
Girl all that I need, is to be where you are
[Chorus 2x]
