

Everything Is Real (Isle of Crows Remix)

Icon of Coil

Everything is real. [2x]i passed the rivers from the (same)(tier)
Protects me.
Keeps me safe.
Wheel of Fortune shapes the landscape.
With our memories on tape.
Still I find a path and it haunts me.
Like a lost soul in a house.
Maybe one day it will catch me.
And give me skin to breathe.You sequence my thoughts cause nothing seems real.
Keep my heart in steady beat.
As i don't know the end.Everything is real.I have no will.
No soul.
No courage.
only () runs through my heart
Can't feel no pain.
Can't feel no sorrow.
And I never experienced joy.
How we would be to make our choice.
Walking through the days of wonder.
Confused our way for death.
Our neighbors would like to rest.You sequence my thoughts cause nothing seems real.
You keep my heart in steady beat.
as I don't know (your) soulEverything is real. [2x]
